While it's difficult to accurately compare every feature and capability across the email marketing spectrum, we can give you five reasons why our email marketing service stands out from the crowd.

## ★ The Interface

Our intuitive interface makes even the sophisticated email-marketing features easy for anyone to use, saving you time and effort and allowing you to let non-technical staff members help you manage your lists, content, and account.

## ★ The Relationship

At Grandville Corporation, we stay involved to make sure you're getting the most out of your email marketing account. Whether you're just getting started or you have a question about a campaign or its results, we stay with you every step of the way.

## ★ The Custom Designs

No pre-fabricated templates here, just professional designs created just for you and your organization. You can utilize our professional design services to develop a template that complements your current brand or colors. Or, you can supply us with your own in-house masthead. Either way, we'll help you create and send great looking campaigns every time.

## ★ The Flexibility of It All

From signup screens and database fields to campaign templates and content, there is little about the service Grandville provides that can't be customized to suit your particular projects and process. All you have to do is ask and there's a very good chance we'll say yes.

## ★ The Price

Our startup and activity prices tend to be lower than that of most comparable email services out there, particularly when you factor in our custom designs, extensive features, training, and customer support.
